Ben Haneman Conference Grants for Higher Degree Research Students and Early Career Researchers 18th ANZSHM Biennial Conference, Adelaide, 11–15 July 2023

The Ben Haneman Conference Grants are designed to assist higher degree research (HDR) students and Early Career Researchers (ECR) present papers at the ANZSHM biennial conference. The grants are named in memory of Dr Ben Haneman, a long-time member of the Society and supporter of young researchers.

Up to 10 grants will normally be awarded by the Ben Haneman Grants Sub-committee for each conference.

All successful applicants will have their conference registration and dinner fees waived. All conference registrants must be members of the ANZSHM; successful grant applicants will receive one year's free membership of ANZSHM. Domestic applicants (those who reside in the same country where the conference is held) may additionally request up to AUD \$600 to contribute towards travel, accommodation and childcare costs. Local applicants (those who reside in the same city or state where the conference is held) are also welcome to request additional funds where required on the understanding that travel costs will be minimal. International applicants (those who reside in a different country from where the conference is held) may request up to AUD \$1,000 to contribute towards the same cost categories.

Eligibility

The grants are open to current HDR students and ECRs who have graduated with a relevant research degree no more than five years prior to the conference, allowing for career interruptions such as childcare responsibilities or sickness leave.

Grants are awarded on the condition that an abstract for a full-length paper is accepted by the conference organising committee. Receipts will be required for reimbursement of travel, accommodation and childcare expenses.

Preference will be given to those who demonstrate financial need or other relevant circumstances, and those who have not previously received a Ben Haneman Conference Grant.

Successful Applicants

Applicants may expect to hear the outcome within four weeks of the due date for conference abstracts. Grantees are expected to attend the entire conference, including the conference dinner. Grantees will be asked to submit a brief report reflecting on their experience in the month following the conference.

Enquiries

Please email any questions to Dr Charlotte Bennett (charlotte.bennett@auckland.ac.nz).
